Lessons Learned:

- Android SDK
- GitHub lessons? - How to create a shared repo
  - How to collaborate - Merge and push changes
  - How to resolve merge conflicts
- Java programming - Dynamic data structures (Arraylists)

Future enhancements:

- Provide more menu options for the users
- Integrate this app with a pay service
- Use database to store customers' login, location information, etc.
- Provide customers with carry-out/delivery and pre-order services.
